

BIO

Navneet Kapoor

Born: 1970

Nationality: Indian

Joined Maersk: 2017

Position: Executive Vice President, Chief Technology & Information Officer (CTIO)

Navneet leads the efforts to leverage technology, data and AI to create customer value and competitive advantage, thereby enabling the transformation of A.P. Moller - Maersk from a diversified conglomerate to an integrated global logistics company.

Digital platforms, differentiating capabilities in data, standardization, and automation are the power behind the transformation, bringing sustainable benefits to customers, the industry ecosystem, and decarbonization.

Prior to A.P. Moller - Maersk, Navneet enabled the Digital Transformation of Target, a Fortune 50 US retailer, and has worked in omnichannel retail, financial, manufacturing and engineering research industries. Navneet has an avid interest in innovation and start-ups and has launched a number of Accelerator initiatives.

Above all, he is passionate about mentoring global leaders and exploring new perspectives on how individuals and companies can be successful in a globally distributed world and is often leading the way to put these ideas into practice.
