Meet our new app

Integrated Logistics at your fingertips

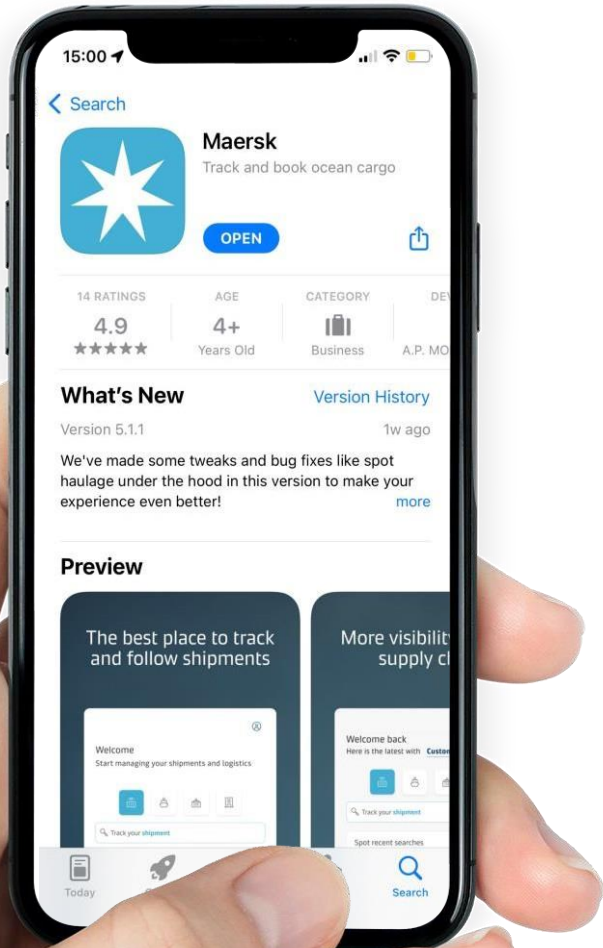

Spot offer notifications

Book at a lower price by booking as soon as they get the notification

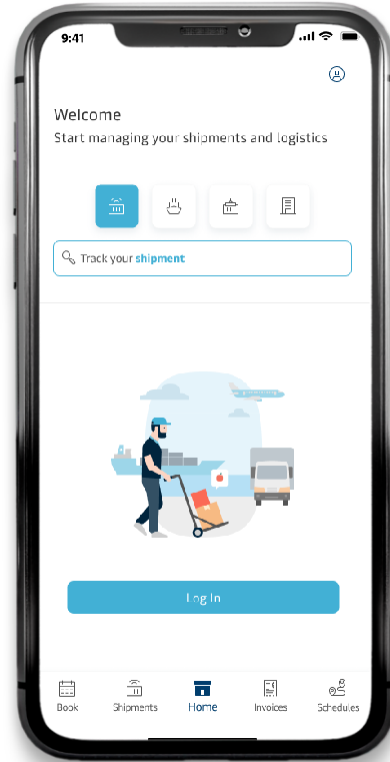

Downloading the app and logging in

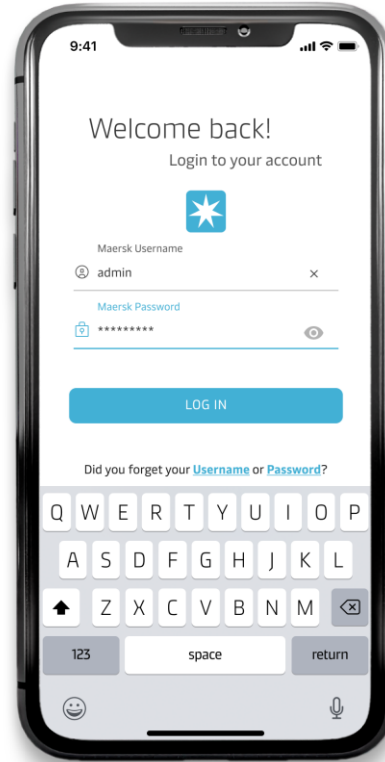

My Profile

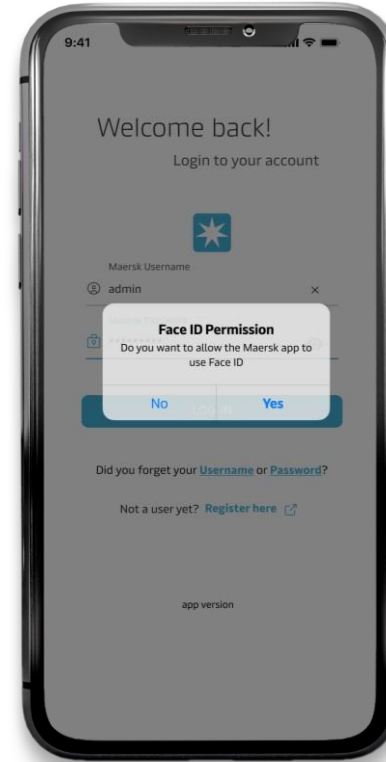

The Maersk app is in the Apple App store & Google Play store.

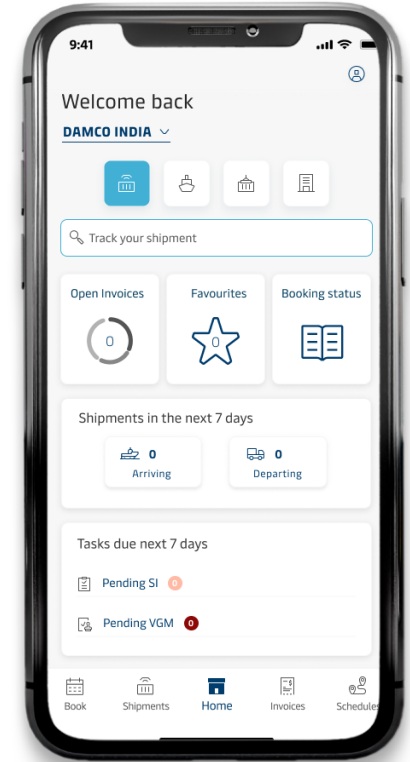

You can track a shipment and view schedules without log-in.

If you have a registered account, you can log-in where you will get a personalized experience.

Option to use a biometric log-in. This leverages app native features, allowing for faster log-in next time.

Logged in homescreen contains the 'hub' – a quick tap interface to all key features.

Maersk Mobile App - Spot offer notifications

Secure space early and save time with Maersk Spot Alerts

How to get alerts straight to your mobile:

1. Download the Maersk App from the App Store or Play Store
2. Allow notifications from the Maersk App
3. Log in to your Maersk account and tap 'Add a subscription' on the home screen
4. Select your route, container size and subscribe

You will now receive notifications when Maersk opens for bookings on your selected route.
