

**Dear Customer,**

We would like to inform you of several ongoing and upcoming developments affecting transport operations across Adriatic and North Ports. These updates may impact transit times, train schedules, and container handling procedures. Please find the key points below:

**Adriatic Ports**

Please be informed that last week's situation on railway caused further delays with the rail connection.

**Rijeka:**

- Units in backlog – **14 days delay**
- Units Al Murabba (ETA 10/01) – **17 days delay**

No announced closures until end of the year in Croatia

At this moment we are exploring every possibility of decreasing the gap between dispatches and clearing the terminal. The “normalization” and the start of decreasing the delay is expected only from Week 6.

**Koper:**

- Current delay: **delay 3 days**
- Terminal occupation **84% - under control**

Continuous closure of one line on a double track.

**Budapest inland terminals (Mahart / Metrans):**

Mahart: Both import and export volumes are still quite high.

The 6-hour complete track closures on the MÁV line at night in January make the arrival and departure of trains unpredictable.

**North Ports updates:**

**Hamburg:**

Hamburg port terminals are reporting delays in handling, and other northern German ports remain overloaded, which further slows down train operations. It is currently not possible to even approach regular timetables, and clearing the accumulated volumes will take a considerable amount of time.

## Bremerhaven:

Due to the high traffic at Mahart Container Center we are facing delays regarding our BUD-BRV, BRV-BUD trains.

**Important:** From 20/01 there will be a night closure (cca. from 18:00 – 06:00) between Kelenföld – Ferencváros, when no rail traffic is possible
