

10/4/2025

Dear Partner,

On the morning of April 7th, **the T4N Maersk Campbell on our her 507W/514E** performed a "cut and run" in Rijeka due to operation reasons. This means a vessel departs the port earlier than scheduled. As a result, some units destined for Budapest CY remained on board.

If your container was affected by this cut and run, please note that the estimated time of arrival (ETA) at the port has been postponed.

For those who have subscribed to transport plan updates, you should have already received this update. If you haven't subscribed yet, please visit the link below

<https://www.maersk.com/subscriptions/>

Additionally, you will be notified by your Hungarian CX agent separately if your cargo has been delayed due to this. Alternatively, you can check the transport plan on our tracking site using the link below:

<https://www.maersk.com/tracking/>

We apologize for any inconvenience this may cause and appreciate your understanding.

In case of any questions do not hesitate to reach your local Customer Experience Agent.

Sincerely,
Maersk Hungary
