Pick Up date:

Chemical to be Used: (Preferred Chemical to be selected from the below)

- METHYL BROMIDE
 ALUMINIUM PHOSPINE

Additional Information

1. Fumigation request needs to be sent to Maersk 05 working days prior to container pickup date and the request needs to be sent between 8.30am and 5pm (3pm before Fridays and holidays).
2. All fumigation requests needs to be sent to pallmsllkoperationstaff@maersk.com with a copy to lk.export@maersk.com. **This form needs to be filled and sent with the request email.**
3. As per the guidelines given to us, the containers will be fumigated using the above mentioned chemicals. In case you require any other chemical to be used you need to specify same in your request email and we will check with our fumigation company on the possibilities of using a different chemical.
4. Once a fumigation is done, these containers cannot be transferred to a future vessel and it needs to be used only for the vessel that the booking was initially placed.
5. Container fumigation charges can be found on the second page of this form
